Adolescent Hospital**

Replacement post (1)

LON NE-SD-STH-2022-00532 (Approved)

24.10.2022

Best care by the best people

Messages from our senior leaders:

Acting Chief Executive Officer

Jacqui Van Rossum

Thank you for showing an interest in working at NELFT. I am very proud to be Acting Chief Executive here, working with so many amazing colleagues across the organisation. We provide mental health and community services to over 4.3 million people across Kent, Essex and North East London. Our aim is to deliver the best care by the best people. We are focused on working collaboratively to enable our colleagues to improve outcomes for our local communities through innovation and integration. Our strong track record of operational and financial management allows us to do this; investing in the development of our workforce as well as our services, particularly in the digital space.

At NELFT we strive towards a culture that is both just and compassionate for those we care for and for our colleagues. We firmly believe that respecting and valuing diversity, and engaging our workforce and our patients, improves patient experience and outcomes. We aim to care for our colleagues as much as we do our patients and the health and wellbeing support, we have in place is testament to this. Our staff survey demonstrates that these are not just words but are a widely shared set of beliefs.

As a mental health and community trust we believe very strongly in partnership working. We have a well-established track record of collaboration with neighbouring healthcare organisations and local authorities that has enabled us to develop improved pathways of care and better outcomes for patients.

I hope that as you read this job description and the supporting information, that you will consider a career with NELFT. It will be one that I have every confidence will be rewarding and fulfilling and will make a huge difference to the quality of life for those that we serve. I do hope I get the privilege of working alongside you in the future. Regards, Jacqui.

Executive Medical Director / Responsible Officer

Dr Caroline Allum

Caroline.Allum@nelft.nhs.uk

I would like to thank you for your interest in NELFT and wish you every success in your application.

We have a strong Medical Leadership team and believe the Clinical voice is key in driving best care in NELFT.

We are an innovative organisation and are actively engaging in exciting projects across the region, Integrated Care Systems, and within our organisation to make services better for our residents and patients. We hope you will play a key part in continuing our journey.

I look forward to meeting you. Regards, Caroline.

Best care by the best people

Deputy Medical Director

Dr Vincent Perry

Vincent.Perry@nelft.nhs.uk

Thank you for taking an interest and hopefully applying for a medical role in NELFT.

I have worked in NELFT for the past 20 years and cannot see myself working for another Trust. NELFT have provided me with several opportunities throughout the years to grow and develop, which will be the same for you.

We have a robust medical appraisal system, which is recognised as one of the best across London. We have a formidable medical educational department, research department, and Quality Improvement teams.

NELFT is entering a new phase in its service delivery, with several transformation project taking place. We have strong Medical Leadership in NELFT, and we are keen for the clinical voice and the patient voice to guide our service delivery decisions and developments. We also remain mindful of best practice.

I hope you will seriously consider becoming a key player in our journey to an Excellent CQC rating. I wish you all the best with your application and interview preparation and look forward to working closely with you. Regards, Vincent.

Associate Medical Director – Kent

Dr Sophia Holliday

Sophia.Holliday@nelft.nhs.uk

It is an exciting time to come and work in Kent and Medway Children and Young People's mental health services. We are a continually expanding and evolving part of NELFT.

You will join a dedicated group of substantive Consultants and Staff Grade doctors within the service and will have opportunities to influence future direction, treatment models and service design, in the area which you work.

We have strong medical leadership and peer supervision structures in place, with monthly consultant meetings, monthly CPD groups, and regular fora with the medical director.

There are many opportunities in Kent to follow an interest or develop skills in medical education. We are involved with teaching Year 4 Medical students from Kings College London. The newly opened medical school in Kent and Medway offers further opportunities for teaching, both clinically and as part of the undergraduate curriculum. We have training posts across the county for core psychiatric trainees and higher trainees.

Kent is a vibrant place to work, being within easy reach of London, but also benefitting from a beautiful coastline, rural areas and thriving market towns. We recognise the value of, and welcome new and established Specialty Doctors, and can offer flexibility in terms of work patterns and contracts. I seriously suggest that you consider a career within our service. Regards, Sophia.

1.1 Job Title:

Specialty Doctor in Children and Adolescent Psychiatry - Inpatient and Home Treatment Pathway

This post is for a Specialty Doctor position in the Adolescent Tier 4 CAMHS service based at Kent and Medway Adolescent Hospital in Staplehurst, Kent, TN12 0ER.

Rationale for post:

This is a well-established post but has been vacant for some time. A lot of transformation has taken place already and continues to take place in KMAH, since NELFT acquired this service in April 2020. The service has evolved and now includes clinical input into the Home Treatment Pathway. This post is currently vacant, and we wish to recruit substantively to this post as soon as possible.

This is a replacement post and is full-time - 10 Programmed Activities (PAs) post with 8.5 Direct Clinical Contact activities (DCC) and 1.5 Supporting Professional Activities (SPAs).

The successful candidate will work as part of multidisciplinary teams in both inpatients and the Home Treatment Pathways, providing senior medical support to the team, and direct input on clinical cases. The consultant and specialty doctor will be expected to provide guidance and supervision to the team, work directly with young people and their families and liaise as appropriate with community CYPMHS consultants and specialty doctors. The post holder will also be expected to take a lead on emergency Mental Health Act assessments of CAMHS cases in the Section 136 suite on the KMAH site, during working hours and out of hours as required. The post holder will have clinical responsibility for three planned crisis beds at KMAH, which will allow short 72-hour admissions, as well as providing medical leadership and support to the Crisis and Home Treatment teams on the Enhanced Treatment Pathways. You will work alongside two full time Consultants and two other full time Specialty Doctors in the service and will share supervision requirements for junior doctors in the team.

There will also be the opportunity for the post holder to further develop links already established with the local acute trusts' A&E departments and paediatric services, in order to continually improve our services.

The postholder will also have the opportunity to participate in the resident on-call rota for KMAH. Previously this has been remunerated via additional programmed activities.

The postholder will have access to an office based in KMAH, and access to a laptop with printing facilities.

The postholder will be professionally and clinically accountable to the Consultant in the team (currently Dr John Watts), and operationally accountable to both the Associate Medical Director (currently Dr Sophia Holliday), and the Director of Children Services Essex & Kent, via the Assistant director (currently Laura Baker).

The post holder will be a suitably qualified with Section 12 certification, or a commitment to work towards this. The post holder will be a GMC registered clinician responsible for patients allocated to them and will assess, manage, plan, and deliver care.

The post holder will support their peers and team leader and be an effective team member whilst working on their own initiative. They will supervise junior colleagues. They will have a commitment to collaborative working and actively supporting and liaising with other health and social professionals and agencies.

1.2 Main responsibilities:

1. To be responsible for organising and prioritising own and others workload in the day-to-day allocation of work.
2. To deputise when required in the team consultant's absence and delegate appropriately to other medical staff.
3. To have organisational knowledge relating to Trust protocols and procedures and adhere to them.
4. To be responsible for providing accurate records of information required by the Trust for audit purposes.
5. To ensure effective risk management at team level by accident/incident reporting, assessing, and controlling risk and ensuring residual risks are added to the Trust's risk register.

Clinical Skills:

1. To act as an autonomous, registered practitioner who is legally and professionally accountable for own unsupervised actions guided by the professional code of conduct and Trust guidelines and protocols.
2. The post holder will have full registration with a licence to practice on the General Medical Council (GMC).
3. Further professional knowledge will have been gained through accredited courses, workshops, study, and in-house training programmes.
4. To be responsible, and accountable, for service delivery to clients/patients.
5. To be able to assess and develop care plans to meet the complex needs of patients with a variety of conditions. This includes chronic, acute, and palliative care within own competencies, recognising own limitations and seeking advice when necessary. This will include continuously evaluating and acting on outcomes.
6. To be able to initiate referrals to other health professional specialist services and agencies.
7. To provide patients and relatives with information and education thus ensuring they have meaningful choices that promote dignity, independence, and quality of life.
8. To ensure practice is supported by research, evidence-based practice, literature, and peer review.

Training & Supervision:

1. To act as mentor to junior colleagues (FY/CT/GPVTs/ST), providing effective education, facilitating their development, and promoting high standards of medical care.
2. Ensure junior colleagues are actively supported to enable them to achieve their learning needs.
3. To ensure own continued professional development and support a culture of lifelong learning in self and others.
4. To undertake, and assist, in the planning of own mandatory training and workshops.

5. To undertake a regular appraisal, developing a personal development plan that includes clinical competencies reflecting the health needs of the local population and relates to Trust strategy.
6. To support new staff and their integration within the team.
7. To support training as part of the role including changes to professional development and implementation of new policies and guidelines.

Education:

1. To provide in-service training to junior doctor, and other members of the multidisciplinary team.
2. To contribute to the teaching of Medical Students and Trainee Doctors.
3. To engage in the weekly Academic Teaching Programme

Administration:

1. To follow good medical practice standards in documenting all assessments of patients and to share necessary information with other health professionals.
2. To provide reports on time.
3. To ensure that all letters and summaries are checked and sent promptly to referring GPs, other colleagues, and agencies.
4. The post holder will ensure that accurate and up to date records are kept of all clinical activity.
5. The post holder will be expected to have good IT skills and to use the Trust's electronic case record system.

Management:

This is not a formal management position, however as a Senior Clinician you are expected to support the Consultant Psychiatrist to:

1. Support the team manager and other consultants in managing members of the multidisciplinary team to ensure a high level of patient care and ensure patient safety.
2. Provide clinical supervision to all medical members within the team offering clinical supervision as appropriate.
3. Address all areas of clinical governance within the multidisciplinary team. The components of clinical governance include Education and Training, Clinical Audit, Clinical effectiveness, Research and Development, Openness and Risk Management.

Leadership:

1. To participate in the development of an effective team and the development of productive working relationships throughout the Trust.
2. To actively promote professional integrated health working, internally and externally.
3. To facilitate the development of a positive and supportive team culture by taking responsibility for dealing effectively with potential conflict.
4. To take an active interest in working parties and groups within the Trust to develop and improve on service delivery, protocols, and guidelines.
5. To participate in the audit process, linking in with the clinical governance agenda.
6. To advise, encourage and share knowledge utilising the latest research and practice development, through literature and peer reviews.
7. Support the Consultant/AMD in strategic service development and business planning.
8. Lead compassionately on the evolution of services.
9. Engage patients and staff in the development of services.

Communication:

1. To have a wide range of knowledge in approaches to communicating and managing patient care.
2. To be able to effectively communicate with colleagues, peers, senior managers, and clinical leads within the Trust.
3. To be able to communicate complex patient related information facilitating positive outcomes and ensuring collaborative working.
4. Participate in the review and development of clinical policies and identifies improvements to service provision.

1.3 Provisional Job Plan:

Specimen Timetable:

	AM	Type of Activity	PM	Type of Activity
Monday	Morning meeting. Management round	DCC	Direct Patient care/CPA meetings	DCC
Tuesday	Direct patient care / Clinical Admin	DCC	Direct patient care/CPA meetings	DCC
Wednesday	CPD	SPA	Direct Patient care / Clinical Admin	SPA
Thursday	Ward round	DCC	Clinical admin	DCC
Friday	Morning meeting, Supervision/Clinical admin/CETRs	DCC	Audit / Research / Clinical admin	SPA DCC

The final Job Plan (within the terms of the Specialty Doctor contract) will be agreed with the Consultant Psychiatrist and in consultation with the Associate Medical Director after a period of induction after commencing the post. The post holder should recognise that the job will evolve as teams develop, and the post holder should be willing to adapt to change when this becomes necessary. The typical split in DCC to SPA is 8.5 to 1.5. There is scope over time to increase SPAs to 2 within a 10 PA job plan, depending on the doctor's commitment to undertake audit, research, QI or service development.

The postholder will at a minimum, have annual Job Planning with the Associate Medical Director. This will be with or without the Integrated Care Director or Deputy Director. Timely job plan review will take place with the line manager when there are proposed workload changes to support safe working and identify the need for any additional support (e.g., unexpected request to cover a unit/ward/service in addition to current workload). The postholder's Personal Development Plan (PDP) from their last annual appraisal will form part of this process. The Trust's requirements will also form part of the job planning process.

We recognise that working in Kent means covering a very large area i.e., Dartford to Dover, so travelling as part of the job to review patients is considerable, thus travelling time will be factored in when planning assessments in the community.

1.4 Office, Admin, and IT Facilities:

The post holder will have access to a dedicated office based at KMAH.

NELFT is promoting agile working for its workforce, and therefore the post holder will also have access to a laptop and a smartphone, to be discussed with the AMD.

The post holder will receive the necessary dedicated admin support from the medical administrators.

During induction the post holder will be given all the necessary training to use our software systems. The post holder will have full support from our well-established Informatics Technology department, which is available 24/7 to deal and support any IT queries. The post holder will also have internet access to e-mails, Trust policies and other information.

1.5 Other Aspects of the post:

Appraisal and Revalidation:

The post holder will be required to engage in the annual appraisal process in line with Trust policy and GMC guidelines. The Revalidation and Appraisal Lead will allocate an appraiser to the post holder. NELFT will be the post holder's Designated Body for the purposes of Revalidation.

Necessary Registrations:

The post holder must be registered with the GMC and have a licence to practice. The post holder will be a suitably qualified with Section 12 certification, or a commitment to work towards this. It is also the post holder's duty to ensure that their training and registration remains up to date.

CPD:

NELFT appreciates the importance of; and supports all our Specialty Doctors to undertake regular Continuous Professional Development (CPD) and make sufficient provision for this within their job plans. There is strong support from the Trust for CPD and the Trust offers free subscription to CPD Online from the Royal College of Psychiatrists.

The post holder will be expected to develop and maintain a programme of personal Continuing Professional Development, and to enrol for CPD with the Royal College of Psychiatrists and annually submit documents to support their CPD activities. The post holder must maintain good standing with the Royal College of Psychiatrists for CPD.

The post holder will have up to 2 PAs per week for Supporting Professional Activities (SPAs). Professional/study leave of up to 10 days per year (or 30 days over 3 years) will be made available for this purpose in accordance with the Terms and Conditions of Service. The post holder will also have access to a study allowance of £1000 per year (or £3000 over 3 years). Professional/study leave may include conferences, courses, shadowing, delivering or receiving teaching/training, paper writing, fieldwork, and examining and private study leave.

As part of CPD the post holder will be encouraged to attend the weekly local Academic Teaching Programme. The post holder will be expected to become part of a Peer Reference/Support Group with a group of peers drawn from within NELFT, in order to discuss and review complex/challenging clinical cases and to provide support in achieving their Personal Development Plan. There is monthly peer supervision group with the wider group of psychiatrists in Kent.

Research and development (R&D):

Research is not mandatory in this role but would be encouraged if the postholder has a specific interest in research.

The R&D Department is responsible for a sizable portfolio of mental health and community health studies. The Department of Health has consistently rated NELFT research as strong with major research grants and high-quality peer reviewed publications. NELFT has a growing number of NIHR portfolio research studies. The R&D Strategy approved by the Trust Board focuses on attracting and retaining high quality staff, increasing the business base, developing and informing the service model, enhancing the academic culture, boosting grant funding, supporting research, and developing partnerships and reputation.

NELFT encourages high quality research by providing access to high quality academic supervision, training, and statistics and methodology assistance. In addition, there are workshops, open days, and funding to support higher degree courses with a major research component. The R&D Department also manages research governance procedures to ensure good practice in research. There are regular updates through a newsletter, email, and the R&D website. Researchers are welcome to approach R&D for advice and support. The postholder will be encouraged to pursue research, with the possibility of linking this to the programme of such activity conducted within the Trust Research and Development Department headed by Dr Russell Razzaque or with other academic centres.

Library Services:

Aubrey Keep Library (based at Goodmayes Hospital) provides library and knowledge services to NELFT staff, and staff of other subscribing organisations. NELFT staff based in Essex can also access a full library service from Basildon healthcare library.

Aubrey Keep Library supports the provision of high quality, innovative, health and social care services in the local health economy by enabling access to the best available evidence and empowering health and social care staff to develop their evidence-based practice skills. The library also offers computer access, colour laser printer, photocopier and scanner, quiet study space, and support with literature searching and current awareness. A professionally qualified librarian and an experienced library assistant staff the library and are always happy to help.

It stocks around 2,500 print books and takes 40 print journals. Many resources are available electronically. Library staff will provide information and assistance by phone or email wherever possible. The library has access to the print collections of all other NHS London Libraries and over 100 other psychiatric libraries through reciprocal lending and document supply schemes.

NELFT staff based in Kent can also access some library facilities (including study space) and services (including book loans) from our colleagues at the following Kent NHS libraries:

- [East Kent Hospitals University NHS Foundation Trust Library & Knowledge Services](#) at Ashford, Canterbury and Margate
- [Dartford and Gravesham NHS Trust's professional library](#), Dartford
- [Medway NHS Foundation Trust Library & Knowledge Service](#), Gillingham
- [Maidstone & Tunbridge Wells NHS Trust Library & Knowledge Services](#), Maidstone and Tunbridge Wells

Please note you will be referred to Aubrey Keep Library for access to some resources and services

Medical Education Department:

Dr Peter Carter who is the Director of Medical Education (DME) leads the Medical Education Department. Dr Luca Polledri is the postgraduate tutor for higher and foundation trainees; Dr Gemma Hopkins is the postgraduate tutor for Core and GP Trainees. Dr Bini Thomas is the Simulation Training Lead. Dr Monserrat Fuste is tutor for SASG doctors. Our Less than Full Time champion is Dr Amber Selwood. There is a Supported Return to Training Champion (SuppoRTT) Dr Sonali Gupta.

The NELFT medical education department delivers undergraduate and postgraduate (core and higher) education and training. Our dedicated medical education team provides professional support to our trainees and members of staff. Due to our geographical context, our medical education department has key relationships with two health education bodies, Health Education North Central and East London (HENCEL) and Health Education East of England (HE EOE), which liaise with us to provide high quality education and training to doctors in the trust. We also work with University College London Partners (UCLP).

We attract doctors of the highest calibre to enjoy excellent training in a friendly, nurturing environment. They range from FY trainees to higher specialist trainees mainly in psychiatry but also in Paediatrics, Geriatrics and Audio-vestibular medicine.

NELFT medical education department has a very active simulation training programme not only benefiting NELFT staff but also open to staff from neighbouring acute trusts and psychiatry trainees from the 5 mental health trusts in the region. The department runs a separate monthly CPD afternoon for Consultants and SASG doctors. The department is supported by 2 medical fellows, one nurse fellow in education and 3 postgraduate tutors. Consultants and Specialty Doctors have plenty of opportunities to contribute and develop their educational interests.

NELFT is actively involved in teaching Undergraduate medical students, providing 4th Year Psychiatry placements and 2nd year "Medicine in Society" placements for students from Barts & The London School of Medicine and Dentistry, Queen Mary, University of London and a smaller number of 4th year Psychiatry placements for students from University College London (UCL). Doctors may also choose to offer optional "special interest" sessions to 4th year medical students and Selected Study Components to 5th year students who wish to study, in depth, areas of particular interest to them. There are opportunities for interested medical staff to teach on the formal medical school lecture courses.

The Undergraduate Tutor – coordinates placements within the Trust and recent faculty development have seen the appointment of Fellows in Medical Education and provision of “Teaching the Teachers” training courses.

Undergraduate and postgraduate teaching commitments are acknowledged and timetabled within the formal job planning process.

Several of our Specialty Doctors have embarked on a well support CESR programme, which will be available to all new Specialty Doctors. Our Medical Education Department is also keen to support Specialty Doctors in preparation for MRCPsych and CASC examinations.

We have been successful in several bids for funding to improve our medical education facilities. We run a Leadership Course, which is approved by the Institute of Learning Management for senior trainees and have received funding to run a management course for junior trainees. In the past we have run Leadership Programmes for staff grade doctors as well.

Audit/Quality improvement (QI):

The post holder will be expected to participate and complete audit/quality improvement projects.

Clinical audit at NELFT is a clinician led quality improvement activity where medical staff have the opportunity to show leadership, make decisions, organise, and motivate other team members for the benefit of service users.

Clinical audit is a vital area of activity for both trainees and more senior staff and will be a key area under revalidation, as you will be required to provide:

- Evidence of participation in clinical audit
- Evidence that you have reflected on the results of clinical audit
- Evidence that you have acted on the results of clinical audit. This includes action planning which is also a key requirement at NELFT.

Audits are focussed on specific Trust priority areas for clinical audit determined by consultation with clinical and operational management. Support for medical staff undertaking clinical audit is offered at a number of levels including (where applicable) from: the educational supervisor, clinical supervisor, local directorate clinical audit leads, Trust clinical audit Lead, audit facilitator and stakeholders relevant to the clinical audit. The Post holder will be expected to participate fully in clinical audit activities and to encourage audit amongst other team members to facilitate best practice.

Dr Stephen O'Connor is the AMD for Quality Improvement.

Halima Begum is the Trust's clinical lead for Audit.

Mentoring:

The post holder will have the option to access mentoring from an experienced & trained mentor within the Trust and will have access to mentoring as well as monthly supervision sessions from the Consultant Psychiatrist and be part of a peer support/supervision group.

Leave:

Specialty Doctor annual leave entitlement exclusive of public holidays and extra statutory days, is in accordance with the T&Cs 2021 - Schedule 15, as shown below.

1. Doctors upon first appointment to the speciality doctor grade and who are not included in point 2 below, shall be entitled to annual leave at the rate of five weeks (25 days) and two days a year.
2. Doctors who have completed a minimum of two years' service in the specialty doctor grade and/or in equivalent grades or who had an entitlement to six weeks' annual leave a year or more in their immediately previous appointments shall be entitled to annual leave at the rate of six weeks (30 days) and two days a year.
3. Doctors who have completed a minimum of seven years' service in the specialty doctor grade and/or in equivalent grades shall receive an additional day of annual leave and shall be entitled to annual leave at the rate of six weeks (30 days), and three days a year.

Study Leave entitlement is 30 days to be taken over a 3-year period. Leave should be applied for in line with the Trusts' Annual Leave Policy and Procedure for medical staffing.

Cross-cover:

It is expected that the post holder will provide cross-cover for colleagues when they are on leave and in urgent situations if necessary. The post holder needs to pre-arrange cross-cover with other Specialty Doctors to cover his/her clinical duties whilst on leave. Arrangements should be stated in the leave application. It is expected that the three KMAH Specialty Doctors will cross-cover each other's work.

External Duties:

The Trust supports Specialty Doctors to take up and carry out external duties i.e., Royal College roles, HEE roles, within the context of job planning.

The post holder is required to:

- Work in accordance with Trust policies and guidelines always,
- Always adhere to the Trust Information Security Policy, in particular ensuring that there are no breaches of confidentiality because of your actions,
- Carry out other duties commensurate with the grade as directed.

3.1 Kent Directorate:

The Kent Directorate forms one of the 7 Operation Directorates in NELFT. The other Operational Directorates include Acute and Rehabilitation Directorate (ARD); Barking and Dagenham; Essex; Havering; Redbridge; and Waltham Forrest.

Our Kent directorate is mainly a mental health directorate, however also contains pockets of community paediatrics. The directorate manages mainly children and young people, although we also provide services for adult eating disorders.

Best care by the best people

Kent and Medway cover an area of 1450 square miles with a population of 1.6 million people. The key urban areas are Canterbury, Maidstone and Medway.

Kent has a population of about 1.3 million people: 714,200 in the NHS Eastern and Coastal Kent area and 655,700 in the NHS West Kent area. The indicators of health are good when compared to averages for England but with large differences in life expectancy between districts. 141,000 people are dependent on means tested benefits, over 47,000 children are living in low income households, with high deprivation deprivation and unemployment in Thanet and Shepway (East Kent) and some parts of West Kent.

Medway has a population of about 255,000. Part of the Thames Gateway, it is a national priority area for regeneration and growth. On average, there is a younger population than the national average. Many health indicators are worse than the regional and national averages. Men and women in Medway can expect to live shorter lives than the average for England with large differences in life expectancy between income groups. Health indicators are often below the regional average and deprivation is generally higher in Medway than the rest of Kent. People living in one ward in Medway are among the 25% most deprived of the national population. The largest percentage of black and minority ethnic groups in the Kent and Medway area (9.5%) live in Medway.

Kent and Medway is a contrasting area, with high population density in North West Kent and low density in the rural areas, such as New Romney. The socio-economic picture is similarly mixed with areas of great affluence, for example in south west Kent, whilst other areas, predominately in the east, have some of the highest deprivation levels in the south east of England. The population of Kent and Medway is increasing faster than the England average. There are two major development zones in the area – Thames Gateway and Ashford. Both zones are forecast to have significant increases in the levels of population and number of households in future years. The key mental health issues affecting the populations of Kent and Medway are similar to the English national average, except in areas identified as having a high deprivation need, where there are greater levels of severe and enduring mental illness.

Kent services have a culture of continual learning and development. Several service development and QI initiatives are being progressed.

3.2 Composition:

The Kent Directorate overall hosts 4 main areas of services delivery:

1. Specialist adolescent psychiatry Tier 4 CAMHS,
2. Community CAMHS services across Kent and Medway,
3. Eating Disorder services for all ages across Kent and Medway, and
4. Neurodevelopment / Learning Disability services across Kent and Medway

This post is located within the Specialist adolescent psychiatry Tier 4 CAMHS, which is described in more detail under 3.4.

There is a total of 9 Community CAMHS teams across Kent and Medway, which are divided into the East and West sectors. The East sector contains the following services: Thanet, Canterbury, Ashford, and South Kent. The west sector contains the following services: Maidstone, Tunbridge Wells, Dartford, Swale, and Medway.

The Kent and Medway eating disorders service is based in Maidstone, but all patients will be seen in their locality areas across Kent & Medway.

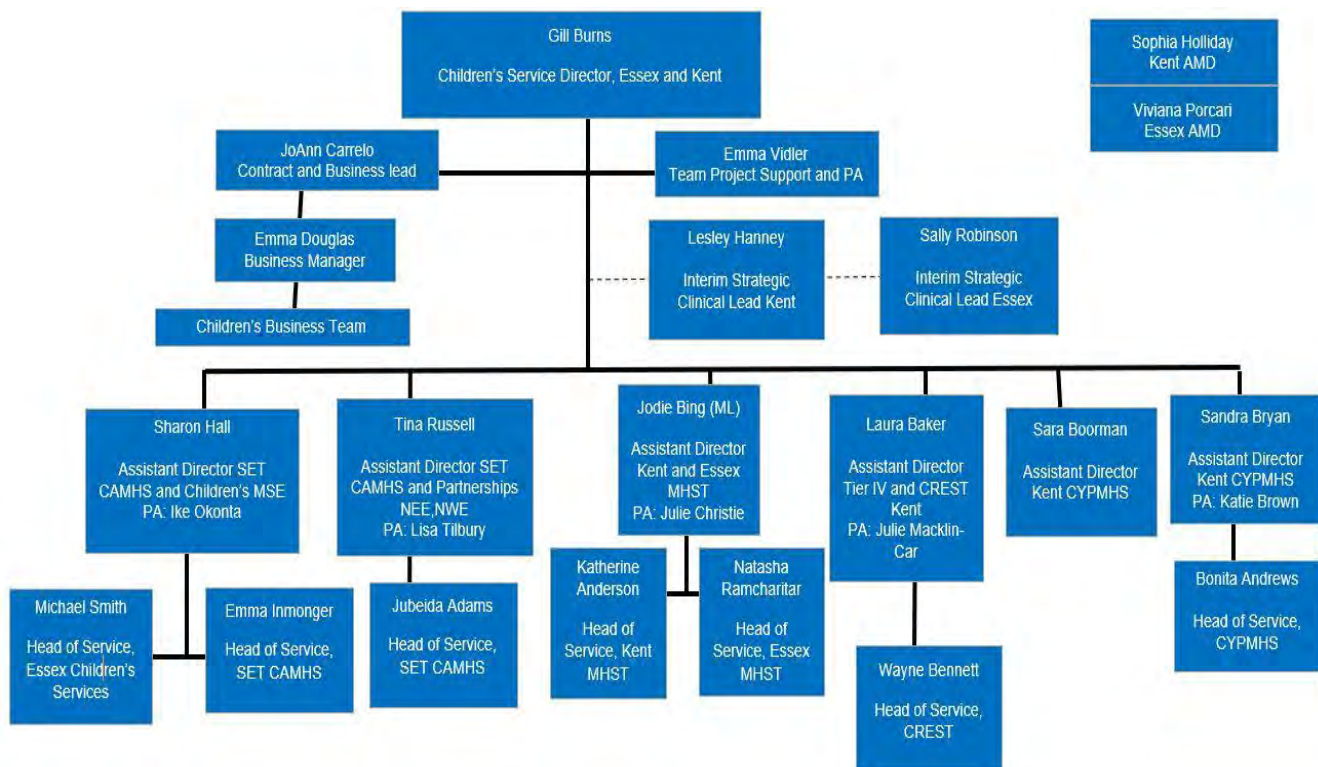

The Kent and Medway Neurodevelopmental and Learning Disability service is based in Canterbury, but all patients will be seen in their locality areas across Kent & Medway.

Each locality team ensures that the service is tailored to meet local need, links to local systems, resources and services. The locality teams provide easy access, high quality, comprehensive, outcome focussed and evidence-based interventions following an integrated care pathway approach across health, social care, education, voluntary and the community sectors. The locality teams also advise and support services to maximise capacity to build resilience and provide early intervention.

The size of each CYPMHS/YPWS locality team is based on several factors, including the index of multiple deprivation and access score, predicted and historic referral numbers, geography, children and young people's population and current demographic data. Each locality team in CYPMHS/YPWS delivers across multiple clinical care pathways combining both brief and longer-term interventions. All staff have full mobile working access to ensure they can deliver interventions from a range of venues as clinically appropriate (e.g. GP practices, children's centres, schools, homes and importantly inpatient units such as KMAH where needed).

3.3 Leadership:

Each Operational Directorate is lead by an Integrated Care Director (ICD), Associate Medical Director (AMD), and a Director of Nursing (DoN). We have also appointed Deputy Associate Medical Directorates within some directorates to strengthen Medical Leadership, and provide support to the AMD.

3.4 Kent and Medway Adolescent Hospital (KMAH) and Enhanced Treatment Pathway (ETP):

The initial inpatient unit was opened in February 2011 under SLAM and transferred to NELFT in April 2020. Integrated Tier IV services are being redesigned with the existing community services model in mind. The aim is to maximise integrated working between KMAH/ETP and community services.

The aim of the service is to deliver effective specialist adolescent psychiatry Tier 4 CAMHS services, in accordance with national guidance and in collaboration with other members of the multidisciplinary team.

The service works collaboratively with all relevant services/agencies to ensure on-going communication and involvement with local services in order to facilitate a safe and timely admission and discharge of young people. The inpatient model supports inpatient care only when there are no better clinical alternatives.

The Enhanced Treatment Pathway will function as an intensive specialist community-based service, alternative to inpatient care. ETP aims to ensure that young people who experience mental health crises and their family/carers receive high quality care from their home treatment team, with fair access for all. The team across Kent and Medway will ensure that people experiencing a mental health crisis, receive timely care in the least restrictive environment, and suitable for them. The acceptance criteria ensure that self-harm, substance misuse, dual diagnosis, learning disability or personality disorder are not barriers to an appropriate team response.

KMAH provides inpatient assessment and treatment of all mental disorders associated with the general children and adolescent population between the ages of 13 to 17 years. KMAH provides services for all genders.

No specific exclusion criteria apply, aside from those in the NHS England Tier 4 specification, and the service will be accessible to diverse populations. It is recognised however, that a general adolescent environment may not be able to safely manage some violent and aggressive young people, and may require a Psychiatric Intensive Care Unit (PICU), or secure setting. A Section 136 Suite has recently opened on the premises of KMAH.

Risk assessments are required for all admissions. An access to Tier 4 assessment (pre-admission assessment) is usually completed for all admissions. Admissions are accepted on a 24:7 basis. This includes admissions of young people assessed in the Place of Safety. The inpatient multidisciplinary team aims for a minimal length of stay in hospital. Decisions about the care of young people will be made with young people and families and be based upon their individual needs, using evidence-based approaches to treatment wherever possible.

The postholder with the MDT, should triage referrals for children and young people who are experiencing a mental health crisis and identify the appropriate pathway (Inpatient or Enhanced Treatment Pathway).

KMAH has a maximum of 11 inpatient beds, with facilities to accommodate up to three, day patients, during the week. The Crises Enhanced Support Team (CREST) has capacity to manage up to 15 enhanced “treatment at home” patients. The CREST team is further divided into the Crises Assessment Team (CAT) and the Stabilisation Team. On average, 1 or 2 referrals are received for inpatient and ETP per week. There is a supervised confinement area.

The unit offers excellent accommodation and facilities for the young people it serves, including family accommodation. The unit is well equipped with audiovisual facilities and conference rooms, Internet access and videoconferencing.

All patients on the ward are discussed and assessed weekly during ward review meetings. The medical team sees new admissions within 24 hours of admission. Patients also have regular input from the medical, nursing, psychology, and other professionals outside of the ward review meetings. Physical health monitoring is high on the agenda, and all patients will have baseline physical health examinations and investigations.

Other meetings on the ward include:

- **Business meetings:** These monthly meetings focus on management issues on the ward including staff supervision and support. Senior staff members share feedback from the trust wide meetings, and other relevant issues are discussed.
- **Quality improvement meetings:** This is also a monthly meeting where the functioning of the ward is discussed with an emphasis on quality improvement measures. Changes to improve quality of care are proposed, discussed, and finalised during these meetings.

There is an excellent Hospital Education Service delivered on-site and the doctors are expected to support these.

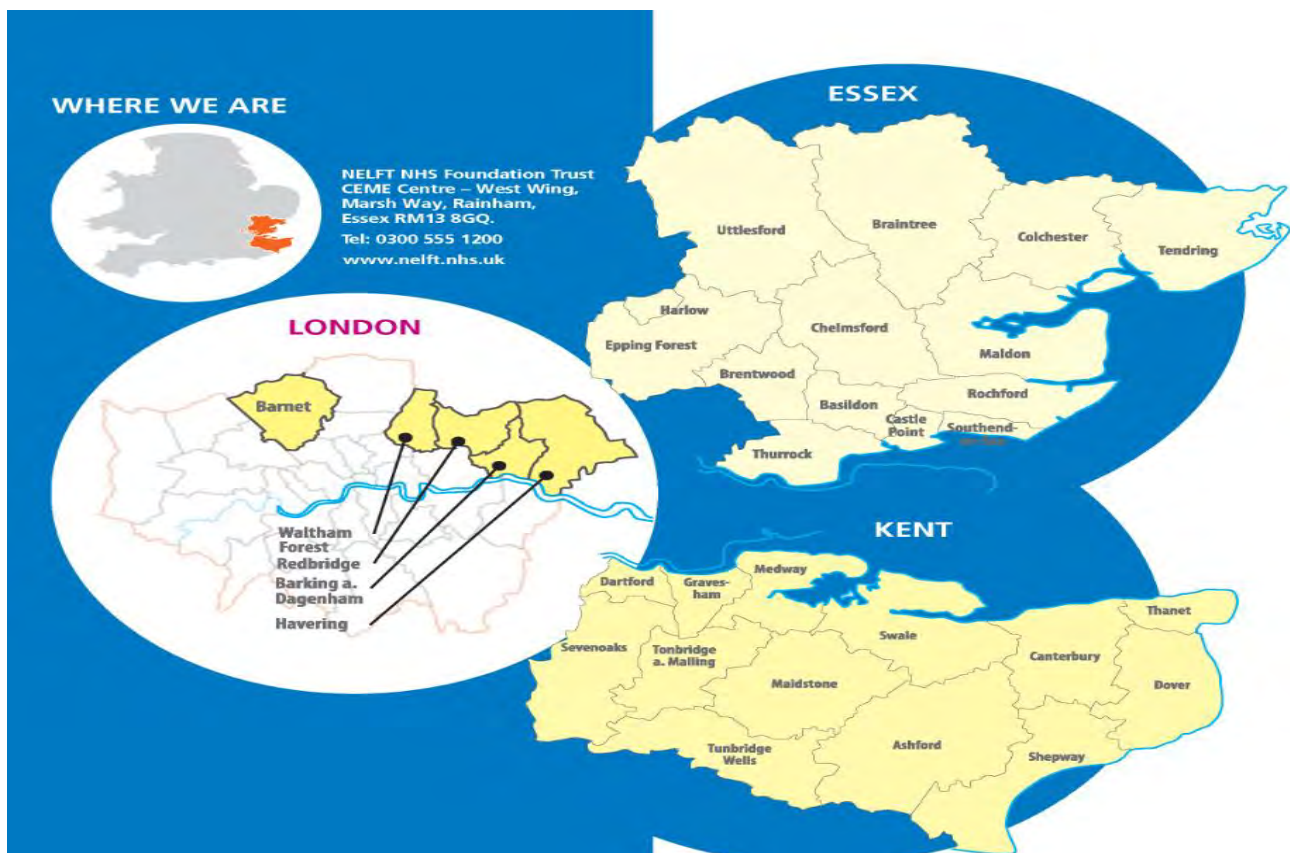

The team has particular skills in multi-family treatment, eating disorders and DBT informed therapies. The members of the multidisciplinary team are experienced staff from a variety of professional backgrounds including social work, mental health nursing, support staff, family therapy, occupational therapy and clinical psychology. The non-nursing members of the MDT spread their work across the inpatient during the day and running evening clinical activities with the nursing team. Medical responsibility for the whole Tier 4 service is shared between 2 consultants, with support from 3 SAS doctors. Specialty grade psychiatrists are employed to provide medical support outside of usual working hours.

4.1 NELFT Profile:

NELFT provides award winning community and mental healthcare for over 4.9 million people across 2,914 square miles of parts of Kent, Essex and North East London.

We work to ensure our patients, their friends and family, feel confident that their health needs are well met. With an excellent reputation for research and development, and quality improvement, our skilled health professionals are at the cutting edge of evidence-based innovation, opening up the possibilities for better ways of working and delivery of care. Our journey includes significant engagement with our people who use services, and we are an early adopter of the Patient and Carer Race Equality Framework.

We employ over 6,500 staff and operate with an annual budget of more than £490 million in order to deliver the *best care by the best people* across the communities we serve.

We as an organization take pride in our achievements in the Workforce Related Equality Standard (WRES) and have an active Ethnic Minority Network (EMN) for our staff. We also have several other networks, all of which make a vital contribution to our vibrant and inclusive organisation.

We are in the top 10 most improved Trusts in the NHS National Staff Survey, with all ten elements measured in the top quartile of results (2020), and we are in the top four organisations in London for the 2021 NHS National Staff Survey.

Since the introduction of a Freedom to Speak Up Guardians in 2016, nationally the FTSU Index has improved and risen from 75.5% in 2015 to 79.2% in 2020. This news story is even better for NELFT as our 2020 index score is 81.6% which is above region and sector.

Our staff are incredibly important to us, and we have focused on ensuring that our staff are well supported. We have developed numerous initiatives across the Trust supporting staff wellbeing (e.g. self-care, work-life balance, stress management, coaching/mentoring) and individuals are encouraged to complete a Personal Wellbeing Plan. Individuals have access to a wide range of benefits which include flexible working, flexible retirement, cycle scheme, gym discounts and other benefits. Teams can access reflective and wellbeing support sessions where they need.

Research and Development is strong at NELFT, and we are the top recruiter to NIHR trials for a MH Trust in the North London Region with over 44 portfolio studies and 14 non-portfolio studies running at the Trust. We are in receipt of circa £2,363,915 in 20/21, over 50% of this income is from research grants that NELFT are leading and sponsoring.

Our Quality Improvement team have trained more than 325 facilitators and 30 mentors in Institute of Healthcare Improvement (IHI) methodology, and we are using QI as the way to drive better services for patients and staff across the organisation. Our commitment to Quality is strong and our journey of improvement ongoing.

We know that Clinical Leadership is key in delivering safe and effective services and the Trust has invested in clinical leadership across all clinical specialities, with £2.4 million earmarked over a three-year period. We have already recruited to many different Clinical Leadership posts to ensure all our services are clinically led and operationally enabled.

We have embarked on a journey to implement a compassionate and collaborative culture across the organisation to ensure staff are supported and patients receive the best possible care.

We have numerous accreditations across our services and are currently rolling out the AIMS program across our adult acute inpatient units, which is an exciting and patient focussed program. Our CAMHS unit in our London service is already part of the Quality Network for Inpatient CAMHS. KMAH is currently in the process of obtaining QNIC accreditation.

NELFT provides Children's Community Health Services in Kent, Essex (Basildon, Brentwood and Thurrock), and North East London (Waltham Forest, Redbridge, Havering and Barking & Dagenham). These services are integrated and multidisciplinary and include targeted and universal services. Targeted services include CAMHS/EWMHS services and the Specialist Community Children's Services (SCS). The targeted services have a single point of access in each borough and treatment pathways that follow from there. MDT referral meetings are established in most localities for discussion regarding complex cases. There are 2 main strands from the single point of access; a CAMHS/Emotional Wellbeing pathway and a Specialist Community Health Services Pathway. Some Care Pathways overlap both CAMHS and SCS e.g., ASD/ADHD and LAC. Joint Paediatric – CAMHS clinics are established in some boroughs. Universal services also have a single point of access and include Health Visiting and School Nursing services. The Children and Young people's Clinical Integrated Group facilitates integrated and standardised pathways for children's physical and mental health and quality improvement within children's services throughout the Trust.

We are excited that we are partnering with QMUL to recruit a Professor for CAMHS and a Professor for Paediatrics, in recognition of our commitment to delivering outstanding children's services to our population.

Our mental health services include:

- Specialist inpatient and community-based treatment and care for people experiencing acute mental illness,
- Help for children and young people with emotional, behavioural or mental health difficulties,
- Care for people with dementia,
- Specialist community eating disorder teams,
- Specialist community perinatal teams,
- Specialist community personality disorder teams,
- Support for people with problems associated with drug and alcohol misuse.

Our community services are provided in clinics, hospitals and in people's own homes, and include:

- Care and support for people living with long term conditions such as diabetes,
- Speech and language therapy,
- Health visiting, district and school nursing,
- Specialist community paediatric, therapy and nursing services.

Many services that in other areas may be provided in hospital, such as blood testing, footcare and children's audiology.

We actively sought to develop our stakeholder partnerships locally and are fully engaged in the development of Primary Care Networks, Sustainable Transformation Projects, and Integrated Care Systems. This is led locally by the Integrated Care Directorate leadership teams to ensure that the needs of our local populations are met. Partnership work with our

governors, people using our services and our staff is also critical in maintaining momentum and energy for the changes that the future of public services will demand.

Benchmarking of our services and their performance has proved that we are often leading the field. Our focus on high quality and value for money means we are able to play a key role in supporting the local health economy to provide integrated healthcare services for local people.

Area demographics:

Area	Total Population	CYP	Adult	Older Adult
Barking & Dagenham	214,107	58,551	135,749	19,807
Essex	1,800,000	359,000	1,100,000	367,000
Havering	260,651	53,208	160,925	46,518
Kent	1,900,000	367,000	1,100,000	364,000
Redbridge	305,658	76,447	189,938	39,273
Waltham Forest	277,000	66,750	180,250	29,980

4.2 Trust Management & Medical Management structure:

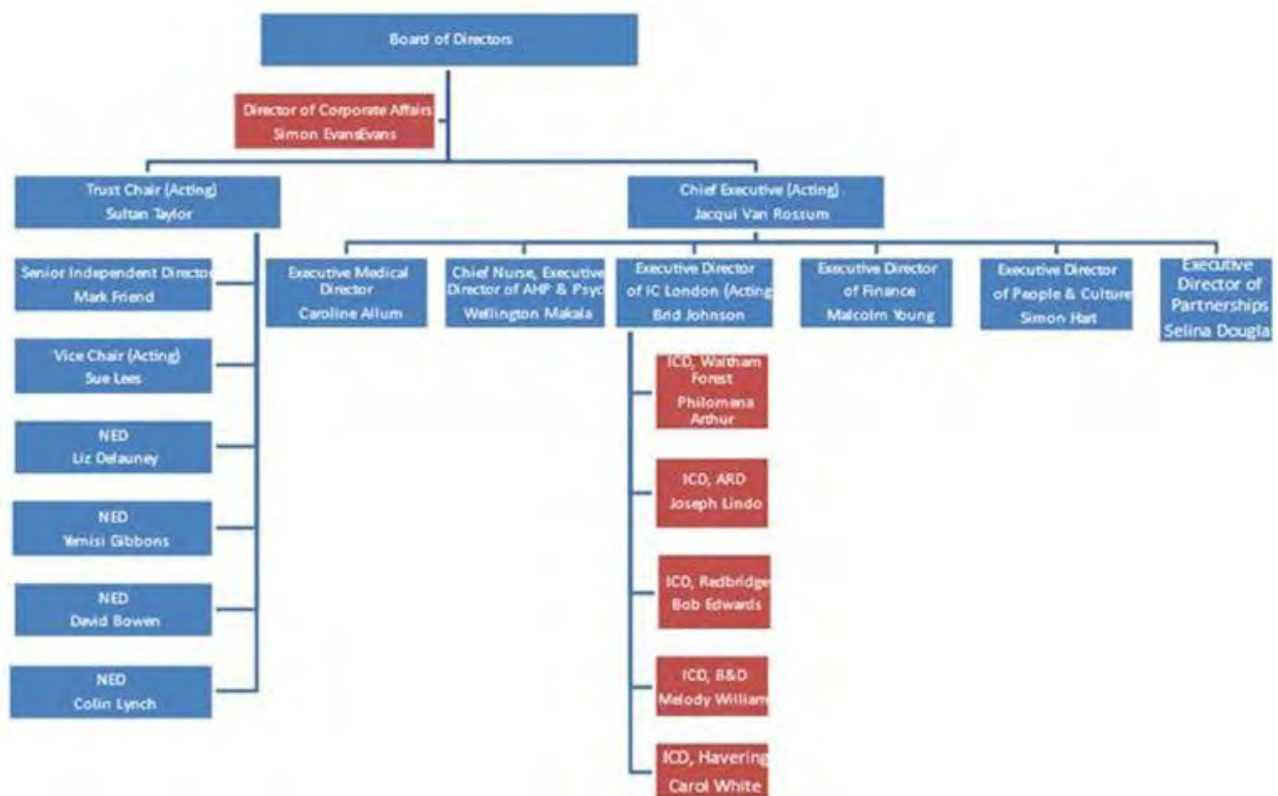

The Trust Board is made up of executive and non-executive directors. They work together to set the strategic direction and priorities for our organisation. They are held to account by our Council of Governors.

The executive directors are also part of our wider Executive Management Team, which is responsible for the day-to-day running of the Trust. Other members of our Executive Management Team attend board meetings.

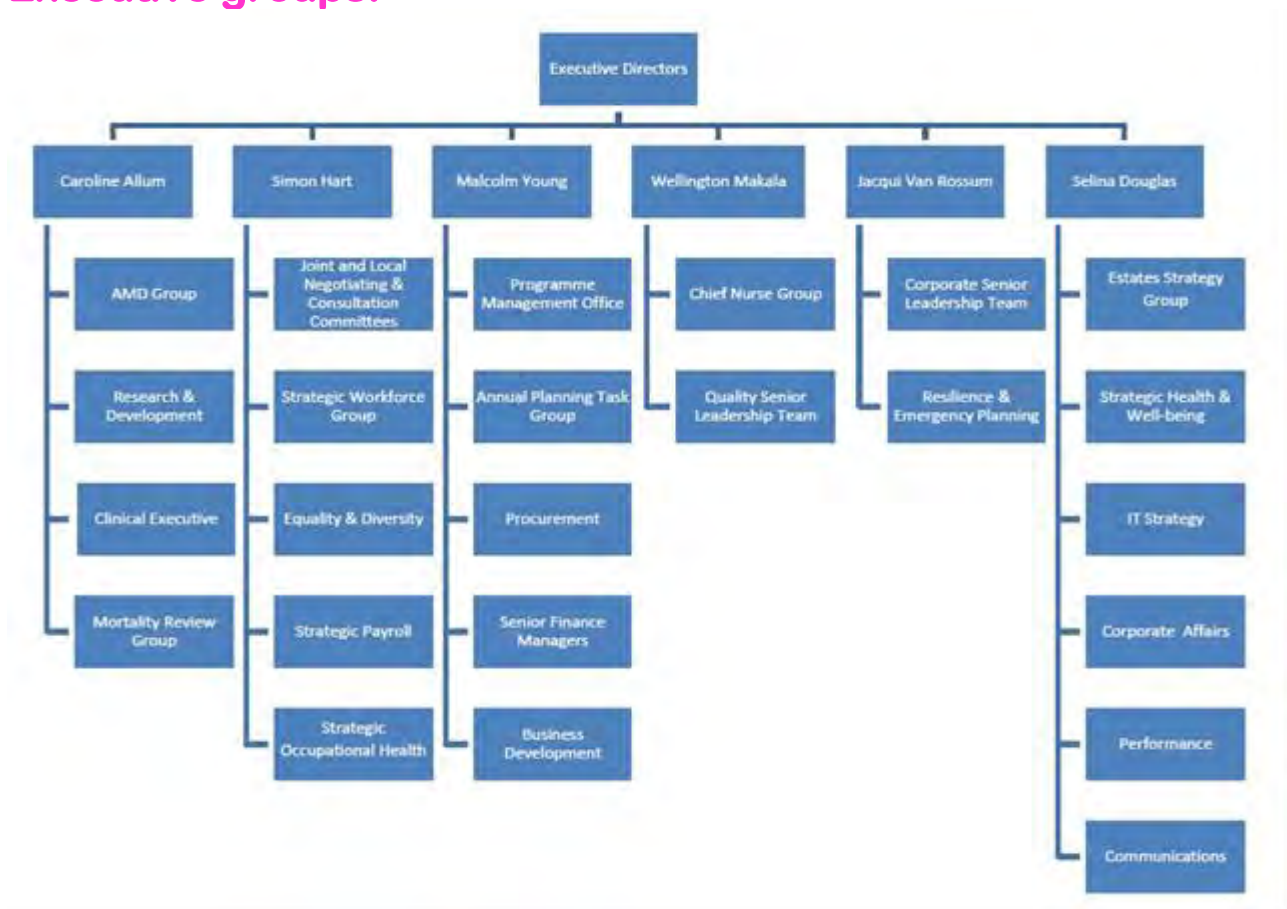

Our Trust Board:

Our Board of Directors:

Executive groups:

Medical Management Structure:

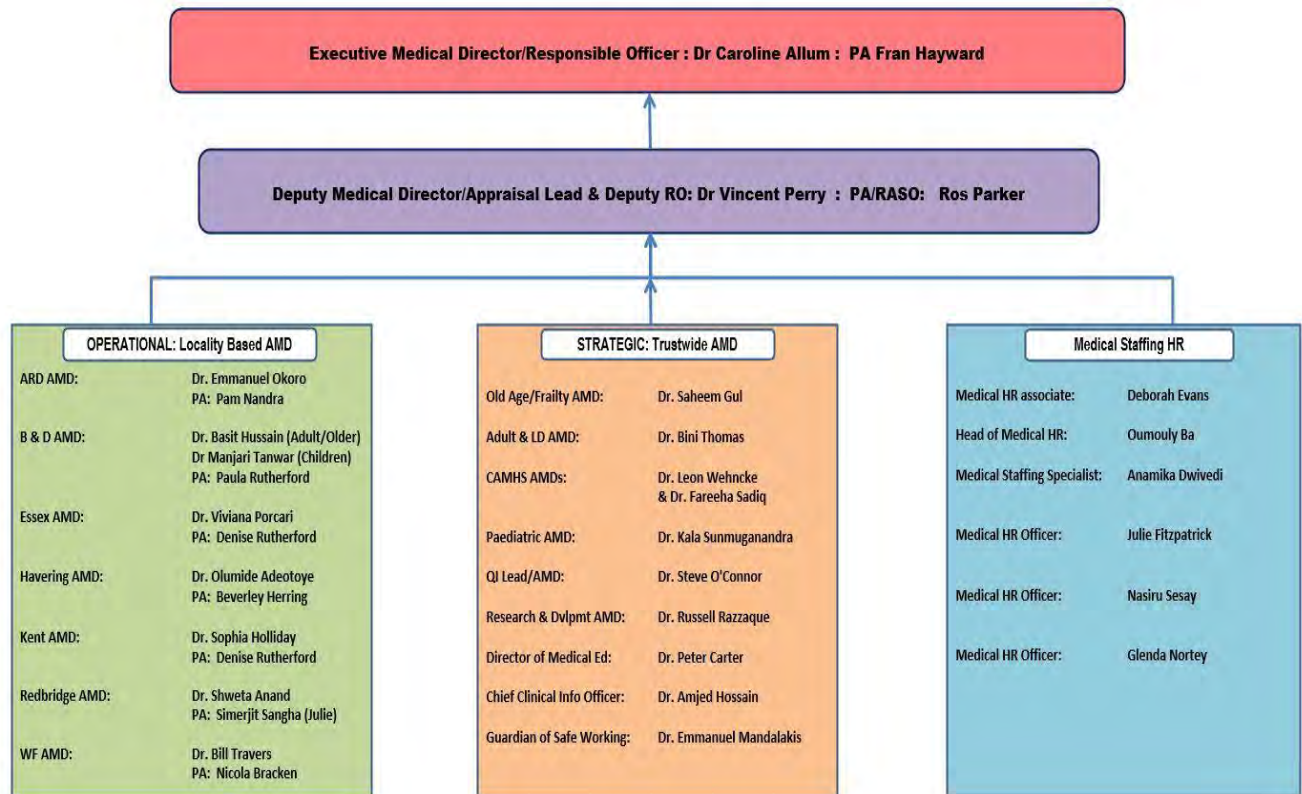

Our Executive Medical Director is Dr Caroline Allum, who also acts as the Responsible Officer. Our Deputy Medical Director is Dr Vincent Perry, who also acts as Deputy Responsible Officer and Appraisal Lead. We have operational Associate Medical Directors who lead in one of the 7 directorates, and we have strategic Associate Medical Directors who lead across the organisation to implement standardised best practice. We have also appointed to Deputy AMD posts in the Directorates, as part of the Clinical Leadership investment.

Our 7 operational directorates include:

- Acute and Rehabilitation Directorate (ARD);
- Barking and Dagenham;
- Essex;
- Havering;
- Kent;
- Redbridge; and
- Waltham Forrest.

Our 3 strategic “Clinical Integrated Groups” include:

- Children and Young People;
- Adult Mental Health and Intellectual Disability; and
- Older People and Frailty.

4.3 Trust values:

NELFT's Trust values are:

Expectation from the post holder:

The post holder will be expected to support their team, department, and organisation to achieve the Trust's values in their day-to-day work.

4.4 Just and Compassionate Culture:

At NELFT we commit to a Just and Compassionate Culture for our colleagues and our patients. We will support and promote a culture based on fairness, respect, honesty and trust, ensuring that we have consistent leadership behaviours and styles across the trust. Our vision is to create an engaging place to work and an organisational environment in which you feel valued, supported and where everyone has the opportunity to learn and improve when things don't go to plan.

A Just and Compassionate Culture is a diverse one where you bring your authentic self to work without fear and where all colleagues feel understood and supported by others. Our professional relationships are built on a foundation of mutual respect, trust, and honesty. We are committed to welcoming and making everyone feel valued here at NELFT.

5. Additional Information

Staff Health and Wellbeing:

Managing health and wellbeing is the responsibility of both the employer and the employee. The trust strives to ensure that staff are provided with an environment and opportunities that encourage and enable them to lead healthy lives and make choices that support their wellbeing. We will ensure the following is in place to support all staff:

- Local occupational health service for pre-employment and in-employment support is available. Our Occupational Health provider is OHWorks Ltd. Referral will be by their line manager with their consent.
- There is also access to an Employee Assistance Programme (EAP), which offers employees confidential, independent, unbiased information and guidance on a range of emotional, health and social issues. A range of other support services are available to provide emotional wellbeing support of a short- or long-term nature.
- Access to the WellNEL direct support service for North East London, providing emotional health and wellbeing support.
- Local organisational support for staff following serious incidents is available and teams can access reflective and wellbeing support sessions.
- A wide range of local initiatives/resources are provided to promote workforce wellbeing for example: self-care, work-life balance, stress management, coaching/mentoring, and individuals are encouraged to complete a Personal Wellbeing Plan.
- NELFT has also rolled out regular Schwartz rounds, which has proven popular under staff, and is a good food for thought and personal wellbeing.
- Individuals will have access to a wide range of benefits, which include flexible working, flexible retirement, cycle scheme, gym discounts and other benefits.

All staff will be provided with information on how to access these support resources during induction, and regular updates are also communicated in our Weekly Update Newsletter.

Health & Safety:

Employees must be aware of the responsibilities placed upon them under the Health & Safety at Work Act (1974) and subsequently published regulations to ensure that the Trust's Health and Safety policies and procedures are complied with to maintain a safe working environment for patients, visitors and employees.

Infection Control:

Each staff member has a duty to take personal responsibility for the prevention and control of infection, in accordance with Trust Infection Prevention and Control Policies, which reflect the statutory requirements of the Health Act 2006 – Code of Practice for the Prevention and Control of Healthcare Associated Infection. They must attend mandatory training in Infection Control and be compliant with all measures required by the Trust to reduce HCAs.

Risk Management:

You will be responsible for adopting the Risk Management Culture and ensuring that you identify and assess all risks to your systems, processes and environment and report such risks for inclusion within the Trust Risk Register. You will also attend mandatory and statutory training, report all incidents/accidents including near misses and report unsafe occurrences as laid down within the Trust Incidents.

Safeguarding children and vulnerable adults:

NELFT is committed to safeguarding and promoting the welfare of children and adults and to protecting them from the risks of harm. The Trust recognises its responsibility to ensure that safe working conditions and systems are in place for staff working with children, adults, and families in their care. Staff are required to comply with Trust policies on Safeguarding.

Standards of Business Conduct & Conflict of Interest:

The NHS Code of Conduct and Standards of Business conduct for NHS Staff require all employees to declare all situations where you or a close relative or associate has a controlling interest in a business [such as a private company, public organisation or other NHS or voluntary organisation] or in any activity which may compete for any NHS contracts to supply goods or services to the Trust. All such interests must be declared in the Trust's register of interests either on appointment or when such interests are gained.

As an employee you are required to make yourself aware of and adhere to the Trust's governance policies, such as Standing Orders and Standing Financial Instructions.

Sustainability:

All staff has a responsibility for delivering high quality healthcare in a low carbon environment, where energy is used wisely and not wasted. It is the responsibility of all staff to minimise the Trust's environmental impact by recycling where possible, switching off lights, computers, monitors and equipment when not in use, minimising water usage and reporting faults promptly.

Smoking Policy:

It is the Trust's policy to promote health. Smoking, therefore, is actively discouraged. It is illegal within the Trust buildings and vehicles.

Codes of Conduct:

NELFT requires the highest standards of personal and professional conduct from all its employees. All employees must comply with the Code of Professional Conduct appropriate to their professional governing body.

As an NHS employee, you are required to observe the following principles:

- Make the care and safety of patients your first concern and act to protect them from risk;
- Respect the public, patients, relatives, carers, NHS staff and partners in other agencies;
- Be honest and act with integrity;
- Accept responsibility for your own work and the proper performance of the people you manage;
- Show your commitment to working as a team member of working with all your colleagues in the NHS and the wider community;
- Take responsibility for your own and continuous learning and development.

Data Protection:

Personal data is protected under the Data Protection Act (1999) and the post holder will ensure that it is securely held and that the requirements of the Act are followed. It is the responsibility of all staff whose jobs requires them to record information in Trust Computer systems (e. g RIO, SystmOne and ESR) to ensure that the data entered into these systems is of high data quality and that information is recorded correctly and in a timely manner. Failure to adhere to this requirement could be considered a disciplinary matter.

Information Security and Confidentiality:

All employees are required to observe the strictest confidence regarding any patient/ client information that they may have access to, or accidentally gain knowledge of, in the course of their duties.

All employees are required to observe the strictest confidence regarding any information relating to the work of the Trust and its employees.

You are required not to disclose any confidential information either during or after your employment with the Trust, other than in accordance with the relevant professional codes.

All person identifiable information must be held in the strictest confidence and should be disclosed only to authorised people in accordance with NHS Confidentiality Guidelines [Caldicott] and the Data Protection Act 1998 unless explicit written consent has been given by the person identified, or where information sharing protocols exist.

Failure to comply with these regulations whilst in the employment of the Trust could result in action being taken under the Trust Disciplinary Policy and Procedure.

Equality and Diversity:

NELFT is committed to the implementation of the Equality and Diversity at Workplace policy which ensures equal opportunities for all. NELFT is also committed to embracing diversity and eliminating discrimination in both its role as an employer and as a provider of services. It aims to create a culture that respects and values each other's differences, promotes dignity, equality, and diversity, and encourages individuals to develop and maximise their potential. The Trust will ensure that it provides equal and fairness for all,

and not to discriminate on the grounds of gender, marital status, race/ethnicity, disability, sexual orientation, religion, transgender or gender reassignment status, age, marriage or civil partnership/same sex marriage, and because of you being pregnant or being on maternity/paternity leave. All staff are required to observe this policy in their behaviour to employees and patients/service users.

Key Performance Indicators (KPI):

Each individual and service will be set KPIs and achievement against these will be regularly reviewed. Performance against individual and service KPI's will be routinely monitored by your manager.

Review of this Job Description:

This job description is intended as an outline of the general areas of activity and will be amended in the light of the changing needs of the organisation. To be reviewed in conjunction with the post holder.

Other Duties:

There may be a requirement to undertake other duties as may reasonably be required to support the Trust. These may be based at other Trust managed locations.

Amendments:

This is a description of the post as it is at present constituted. In consultation with the post holder, periodic reviews will be carried out to ensure that the job description relates to the job being performed and to incorporate any changes being proposed. It is hoped that agreement can be reached to any reasonable changes. If this is not possible your line manager reserves the right to make changes to the job description in consultation with you.
