Key working relationships and lines of responsibility:	Ward Manager: TBC Unit Matron: TBC Associate Medical Director: Dr Anand Mathilakath Associate Director: Claire Clifford Chief Medical Officer: Dr Emma Whicher Chief Executive: Graham Wareham		

1 Introduction

This new post is for a Consultant Psychiatrist responsible for providing clinical input and leadership to Ward 2 of our new Northwest Mental Health Inpatient Service based at Chertsey in St Peter's Hospital as part of the Acute Care Pathway. There are other opportunities to take on additional responsibilities with remuneration. The consultant Psychiatrist is responsible for providing clinical input and leadership and working alongside a multidisciplinary team in line with New Ways of Working.

2 Trust Details

Surrey and Borders Partnership NHS Foundation Trust is the leading provider of health and social care services for people of all ages with mental health problems, drug and alcohol problems and learning disabilities in Surrey and Northeast Hampshire for people of all ages.

We provide various community services, integrated health and social care, early intervention, and detection programmes, and highly specialised therapy and treatment. Our high-quality care focuses on enabling people to live well with their conditions and to work towards recovery. Over 2,960 people work with us substantively at Surrey and Borders Partnership to provide our services, equating to an average of 2,541 whole-time equivalents (WTE) staff. Many of these are highly skilled professionals who work with various partners in the private, public, and voluntary sectors to ensure we deliver high-quality care to our local population of 1.3 million. In addition, we seek to involve and engage people who use our services and their families in our community, and we have just over 7,000 public members of our Foundation Trust.

The Trust has hosted core trainees in psychiatry from HE KSS. There are also HST 4–6-year trainees on rotation from HEKSS, and the trust hosts GPVTS and foundation trainees. In addition, there are opportunities for small-group medical student teaching from Southampton, Brighton, or St. George's Medical Schools. In April 2005, we were established as a health and social care partnership Trust and in May 2008, we became an NHS Foundation Trust, the first mental health and learning disability Trust in the Southeast Coast NHS region to gain this status.

Our Trust's projected 2023/24 financial year income is about £320 million. In previous years, we reported the income for Children and Family Health Surrey; this service now trades within the Trust. We deliver high-quality care across our 140 services registered with the Care Quality Commission. Our services are provided in community settings, hospitals, and residential homes, emphasising local treatment and support close to people's homes wherever possible.

The M25 and M23 pass through the area, giving easy access to both Gatwick and Heathrow airports and the south coast.

3 Service Details

Delivering high-quality mental health care and treatment is fundamental to what we do as a Trust; we are committed to developing three new mental health inpatient services in Guildford, Chertsey, and East Surrey because we want to provide the best mental health care. Farnham Road Hospital, Guildford, opened in December 2015, and following its completion, our focus moved to the former Abraham Cowley Unit (ACU) site on the St. Peter's Hospital campus, Chertsey, and a third service to be provided in the east of the county.

Our New Northwest Mental Health Inpatient Service is a new purpose-built 64-bed 24/7 in-patient Mental Hospital and will replace the Abraham Cowley Unit in St Peter's Hospital Campus, Chertsey, Surrey. The new hospital is planned to be completed by the Autumn of 2024. With 48 working-age adults split between,

- Ward 1, a Male ward (16 beds).

- Ward 2, a Female ward (16 beds).
- Ward 3, a Mixed ward (16 beds).
- Ward 4, a Mixed ward (16 beds).

Acute Therapy and Diversional Activities Service provides therapy programmes and leisure activities for people on our wards. The team also offers group work and individual contact opportunities to people supported by the North West and South West Home Treatment Teams. Team members include Diversional Activity coordinators, a Psychologist and Psychology Assistants, an Occupational Therapist, Fitness and Wellbeing Instructor and Patient Liaison Worker. Therapy groups include Coping Skills, essential Cognitive Behavioural Therapy, Emotions and Relationships, Coping with Psychosis, Art Therapy, Relaxation, Wellbeing and Recovery. Fitness & Wellbeing Instructor offers gym and sports sessions utilising our fully equipped gym with exercise programmes tailored to individual needs. The team also undertakes individual assessments and 1:1 treatment. People staying on the ward can join our leisure activities in the mornings, afternoons, evenings and weekends. These group sessions include creative writing, games nights, music sessions, arts and crafts, cooking and internet access.

The Trust acute pathway delivers services to approximately 29.9 million working-age adults aligned to the wards from Surrey and North-East Hampshire.

The acute services comprise Home Treatment Teams and inpatient services. In addition, working Age Adult psychiatric services are organised into a community service comprising Community Mental Health Recovery Services. The Acute Service component comprises a Home Treatment team covering the boroughs. The inpatient wards interface with home treatment teams, psychiatric liaison services, Section 136 places of safety, community mental health recovery services, and the broader criminal justice system. The home treatment team 'gate keeps' admissions to the inpatient units.

Inpatient services aim to provide timely assessments and promote the recovery of people with various mental health needs. The goal is one of therapeutic engagement within a recovery framework. A multidisciplinary team develops individual care plans working with each service user. A few service users may need to undergo assessment for signposting/referral/transfer to other specialists or secure services. In addition to providing excellent psychiatric care, we strive to ensure that service users' physical health and well-being are actively managed. There is an emphasis on health promotion and prevention of medical conditions developing. We involve service users and carers in planning care and recovery.

Surrey and Borders provide services for children and young people with mental health, learning disabilities, community forensics, liaison psychiatry, perinatal psychiatry, early intervention in psychosis, substance misuse services and older adults' psychiatry.

Our older adult ward moved to a new, purpose-built facility called New Spenser Ward on the St. Peter's Hospital campus. This provides 20 single ensuite bedrooms, communal facilities, and garden access.

4 Local Working Arrangements

The Consultant will be employed by Surrey and Borders Partnership NHS Trust Ward 2 of our New Northwest Mental Health Inpatient Service based at Chertsey, joining the acute general adult psychiatrists and the multidisciplinary team.

The rationale for appointment to this post is, therefore, intending to maintain a consultant role in this service alongside the existing Consultants. They will be responsible to the Associate Medical Director for all managerial issues, including job planning.

The ECT suite and the lead consultant are based at Farnham Road Hospital and are supported by a well-trained multidisciplinary ECT team.

4.1 Staff within each of the New Northwest Mental Health Inpatient Service Ward consists of,

	Band	WTE
· Consultant Psychiatrist	(This Post)	1.00
· Specialty Doctor		0.50
· Nurse	band 7	2.00
· Nurse	band 6	3.29
· Nurse	band 5	6.57
· Nurse	band 4	4.93
· Nurse	band 3	4.11
· Nurse	band 2	8.21
· Admin & Clerical	band 4	1.00
· Admin & Clerical	band 3	0.80

The Therapies Team provides service for all the wards.

· Acute Therapies Manager	8a	1.00
· Dietitian	band 7	0.30
· Occupational Therapist	band 6	1.60
· Occupational Therapist	band 5	1.00
· Well-Being and Fitness Instructor		1.30 (OT Band 4 on establishment)
· Activity Coordinator		3.00 (OT band 3 on establishment)
· Psychologist	band 8a	1.30
· Assistant Psychologist	band 4	2.90
· Admin	band 4	0.74
· Arts Therapist	band 7	0.10

4.2 As it is a newly built ward, we will monitor admissions, length of stay and discharges closely. We are keen to ensure patients get inpatient care on time when indicated and care in the community as soon as they are fit for discharge. There is a well-resourced bed management and flow teams that support the inpatient pathway.

4.3 The team will support the Consultant Psychiatrist with,

- Participating in triaging of referrals daily.
- Completing initial assessments.
- Liaising and collaboratively working with other professionals.
- Making referrals to acute services where indicated.
- Social workers are providing safeguarding support.
- Occupational therapists provide assessments and interventions to facilitate holistic care.
- Ongoing monitoring of mental state and risk management.
- Offering parent-infant observations and, where indicated, intervention from nursery nurses.
- Offering 1:1 and group psychology interventions.

All caseloads are reviewed through MDT. The Team Leader/Service Manager is pivotal in ensuring appropriate referrals are accepted within the team in liaison with professional leads and Consultants.

4.4 Management Structure:

Graham Wareham is the Chief Executive at the Surrey and Borders Partnership NHS Trust. Clinical services and staff are managed through a Directorate system. Locality and Divisional Managers support Team Leaders and are responsible for running their directorate for its clinical, financial and operative performance. Clinical Governance issues are the responsibility of Clinical Governance Committees headed jointly by the Chief Medical officer and Chief Nursing Officer.

5 Continuing Professional Development (CPD)

- Undertake training and continuing professional development as necessary in line with the development of the post and as agreed with the line manager as part of the personal development planning process.
- To be registered with the Royal College of Psychiatrists for Continuing Professional Development. This includes achieving and maintaining good standing for CPD in line with the requirements of the Royal College of Psychiatrists.
- It is expected that all consultants are members of a CPD peer group. These are typically organised locally, and new consultants can join a local group conveniently for their main base. Meetings usually are monthly or bi-monthly.
- The Trust supports consultant CPD activities by providing a local CPD peer group structure, access to study leave, and a study leave budget alongside a local academic programme the post holder is expected to attend. The Department of Medical Education supports these functions.
- Study leave is provided per the Consultant Terms and Conditions of Service. It is applied through the Department of Medical Education, authorised by the CPD peer group in line with Trust guidance.

6 Clinical Leadership and Medical Management

- To show a commitment to New Ways of Working and provide consultation and supervision to team members.
- To work with consultant colleagues and local managers to develop safe, clinically effective, cost-effective service in Surrey.
- The post holder will be expected to work constructively with SABP Trust managers (including the Associate Medical Director) to work with local commissioners and to deliver and develop a strategy to ensure that the Trust remains the provider of choice for liaison services.
- To develop leadership capability aligned with the Trust approach to leadership development for all staff.

There are opportunities for clinical leadership at the local primary care interface meetings attended by local Consultant colleagues and GP mental health leads.

7 Appraisal and Job Planning

- To take part in annual appraisal and job planning processes. Currently, the Associate Medical Director conducts the annual job plan review in association with the team coordinator and appraisal is arranged with a trained peer appraiser by mutual agreement.
- Job planning for consultants is undertaken annually, generally during the 1st three months of the year. It is preceded by an appraisal, usually completed by all medical staff in the last three months of the year.
- Appraisal is undertaken by a panel of trained appraisers and is supported by the SARD (Strengthened Appraisal and Revalidation Database) software.
- All consultants must have five sessions of managerial supervision per year and evidence of clinical and administrative management must be presented and discussed as part of the annual appraisal.
- Additionally, the post holder must provide line management to identified staff, ensuring staff have set objectives and personal development plans and appraisals are regularly undertaken.

8 Teaching, Training and Research

The Trust has significantly increased the number of core trainees (CT1-3) from 17 to 40 in psychiatry from Kent, Surrey, and Sussex Deanery. Several ST 4-6 trainees from Southwest London and St. George's Trust are also rotating. However, the management of the higher trainees has now been transferred to the KSS Deanery from London. In addition, there are GPVT trainees. There are opportunities for small-group medical student teaching from Southampton, Brighton, or St. George's Medical Schools. There is a robust academic program under the direction of the Director of Medical Education, Dr Jeremy Mudunkotuwe. Library facilities and links with the Academic Department of Psychiatry at St. George's Hospital Medical School are available for research and training.

Consultants are encouraged to participate in research. Further information is available from Professor Ramin Nilforooshan, Associate Medical Director for Research in the Trust. If agreed, the Trust will offer support and resources to consultants with research interests that they wish to pursue.

The post holder must undertake audit activities to develop the quality of service provided by the team supported by the Trust's Clinical Audit Department and the identification of Supporting Professional Activity in their job plan. In addition, the Trust is committed to participating in several national audit programmes, including POMH-UK and regular audits to support CQUIN activity, including cardio-metabolic assessment and intervention.

9 Quality Improvement

The post holder must undertake audit activities to develop the quality of service provided by the team supported by the Trust's Clinical Audit Department and the identification of Supporting Professional Activity in their job plan. In addition, the Trust is committed to participating in several national audit programmes, including POMH-UK and regular audits to support CQUIN activity, including cardio-metabolic assessment and intervention.

10 Mental Health Act and Responsible Clinician Approval

The post holder would be expected to be approved as a Responsible Clinician or be willing to undertake training to obtain Section 12(2) MHA and will be expected to renew this approval according to agreed procedures.

11 Administrative Support and Office Facilities

There is office provision for the consultant psychiatrist on site and access to IT. In addition, there is administrative support shared with other team members.

Administrative support for the consultant is provided by the ward administration function overseen by the ward manager in collaboration with the consultant psychiatrist. This, therefore, enables consultant administration needs to be prioritised as appropriate.

- Library facilities are available at the hospital, and there are links with the Academic Department of Psychiatry at St. George's Hospital Medical School for research and training purposes.
- The Trust is moving to mobile working, with most medical practitioners having dedicated use of a trust-approved laptop with remote access and smartphone usage.
- Flexible working practices and dedicated administrative support will assist with clinics, enabling you to focus on what you do best to deliver high-quality care to children and young people.

- The Trust has standardised on Microsoft Office software, and all clinicians are strongly encouraged to develop computer skills.
- The Trust uses SystemOne for its clinical electronic record-keeping system. Training will be provided if required.
- Bookable and drop-in rooms will ensure that all practitioner office areas offer privacy for activities requiring higher confidentiality.

12 Clinical Duties of Post Holder

- It is expected that the postholder will work closely with the home treatment and community teams to ensure effective and efficient pathways and care for patients. This provides a service consistent with models initially recommended in the National Service Framework. The home treatment team 'gate keeps' admissions to the inpatient units.
- It is expected that the post holder will provide Consultant Psychiatrist input and Responsible clinicians cover the 16 beds in Ward 2, mainly serving the population aligned to the ward.
- It is expected that the post holder will work in partnership with the other consultant. In addition, the post holder will work closely with the multi-disciplinary staff on the ward, including trainee doctors.
- The post-holder will deliver consultant psychiatric input to inpatients admitted to the ward per the agreed Acute Service Operational Policy. In addition, the post holder will provide clinical leadership and be actively involved in service improvement activities.
- The post-holder will be expected to work effectively with colleagues from other professional disciplines and deliver services consistent with the Trust policy for the Care Programme Approach. The post-holder is also expected to liaise effectively with the other general and specialist teams operating in Surrey to ensure effective handover of care when patients transfer between teams as part of the patient pathway.
- The postholder is expected to be involved in the strategic development of the service as a whole and to participate in operational and business planning within the WAA alongside senior team colleagues.
- To provide senior medical input and leadership to the multi-disciplinary team, ensuring safe and timely service provision for service users.
- To take Consultant and RC responsibility for service users
- To provide intensive and expert intervention and management of service users with acute, chronic, and severely enduring mental illness in line with the acute inpatient and PICU care pathway.
- To work flexibly and creatively as part of a multidisciplinary team promoting informed risk-taking and anti-discriminatory practice.
- To liaise with both internal and external interfaces concerning admissions and transfers/discharges.
- To liaise with the Consultant Psychiatrists working in the home treatment and community settings concerning admissions and transfers/discharges.
- To offer expert risk assessment and management skills.
- To ensure that high-quality, safe clinical service is provided to all service users by working with the MDT, ward manager and other senior managers.
- To ensure excellence in providing medical and psychiatric assessments to all referred service users to the service, including using risk assessment protocols.
- To ensure excellence in the delivery of evidence-based treatments.
- Monitoring and managing the length of stay

12.1 Further aspects of the post

- All Consultants must devote most of their time to supporting professional activities. Therefore, the postholder must allocate weekly SPA sessions according to the trust guidelines.
- To participate, with other Consultants, in management and administrative work as necessary. This will include participation in audits and other aspects of clinical governance.
- To encourage and take on clinical research on negotiation through job planning.

- To attend the weekly Academic Program and provide training and supervision for junior Medical Staff.
- The postholder will ideally be approved under Section 12 of the Mental Health Act (1983) and may be expected to carry out appropriate Mental Health Act responsibilities.
- The Trust provides appraisal training and appraisers to support the postholder's appraisal programme. The post holder will also be expected to develop arrangements for CPD supported by the educational opportunities offered by the Trust. They are also likely to join a CPD peer group with college guidance.

13 Clinical Governance and Quality Assurance

Local clinical governance activities are supported by local Quality Action Groups (QAGs), which provide a monthly forum for locality-based teams to review joint working on clinical governance initiatives and can include a review of serious incidents, learning from complaints and interface issues. Local QAGs are supported by a divisional QAG, which has a role in identifying clinical governance themes across the Division and ensuring dissemination and learning. The postholder must also participate in clinical audits and other clinical governance activities.

14 General Duties

Surrey & Borders Partnership NHS Foundation Trust is committed to valuing and promoting diversity in employment, service delivery practices and its general environment. All leadership posts expect everyone to be responsible for promoting open, inclusive, accessible service provision, staff development and a culture that values and respects difference.

We recognise that everyone is different, and we are committed to achieving equality and fairness for our staff and people who use our services, including those with disabilities, people who are lesbian, gay, bisexual or transgender and those from minority backgrounds.

Our Trust is passionate about developing a culture that values human differences and similarities at every level of the organisation.

We are also committed to ensuring that we:

- Provide accessible and inclusive services to all.
- Eliminate unlawful discrimination, harassment and victimisation.
- Advance equality of opportunity between different groups.
- Foster good relations between other groups.

We have teamed up with Disabled Go to help disabled people plan visits to Trust services with information on our sites and accessibility details. Visit our pages on the Disabled [Go website](#).

- The Trust encourages establishing mentoring arrangements where appropriate, particularly for new consultants. Several experienced medical mentors in the Trust and access to this network can be activated following an initial discussion with the medical manager.
- Undertake audit activities to develop the quality of service provided by the team supported by the Trust's Clinical Audit Department and the identification of Supporting Professional Activity in their job plan. The Trust is committed to participating in several national audit programs, including POMH-UK and regular audits to support CQUIN activity, including cardio-metabolic assessment and intervention.
- To achieve and demonstrate agreed personal and professional development standards within agreed timescales. In addition, to undertake any other duties at the line manager's request, commensurate with the role, including project work and absence cover.
- To contribute to a healthy and safe working environment by adhering to health and safety regulations and Trust policies.

- To contribute to preventing and controlling healthcare-associated infection by adhering to Trust policies and guidelines.

15 External Duties, Roles and Responsibilities

Developing a Special Interest will be encouraged where it is compatible with the priorities of the Trust and the Locality and can be seen as part of the development plan supporting the National Health Service Plan and the National Service Framework for Mental Health. In recent years, the organisation has developed specialist ASD, FASD, ADHD, forensic gatekeeping, and other services such as Affective Disorder and Primary Care Network. These roles can be encouraged through the specialist interests of clinicians. The development of special interest must be discussed with the Associate Medical Director and Clinical Director / Clinical Leads in the first instance.

- No external duties or responsibilities are included in this post. Such responsibilities can be formed through discussion with the medical manager and revision of the job plan.
- No special interest clinical activities are included in this job description. Requests to undertake clinical activities of this type can be made to the responsible medical manager with adjustments made to the job plan in the usual way.

16 Other Duties

The Trust actively supports the involvement of the consultant body in regional and national groups subject to discussion and approval with the Chief Medical Officer and, as necessary, the Chief Executive Officer. From time to time, it may be required for the post holder to carry out such other duties as may be assigned, with the agreement, by the Trust. The post holder is expected to not unreasonably withhold agreement to any reasonable proposed changes the Trust might make.

17 Work Programme

It is envisaged that the post holder will work on 10 programmed activities over 5 days. Following the appointment, there will be a three-month meeting with the clinical manager to review and revise the job plan and objectives of the post holder. The overall split of the programmed activities is 7.5 to be devoted to direct clinical care and 2.5 to support professional activities (as per the Royal College of Psychiatrists recommendation). However, the timetable is indicative only. A formal job plan will be agreed upon between the post holder and associate medical director or clinical manager three months after commencing the post and at least annually after that.

17.1 Timetable (Provisional Depending on days appointed consultant will work)

Day	Time	Location	Work	Category	No. of PAs
Monday	AM	Ward 2	<ul style="list-style-type: none"> • Ward / multi-professional • Handover assessment of new patients 	DCC	1
	PM	Ward 2	<ul style="list-style-type: none"> • CPA / professional work • Liaison with carers, community teams and GPs. • Clinical administration 	DCC	1
Tuesday	AM	Ward 2	<ul style="list-style-type: none"> • MDT / Ward multi-professional Handover • MHA work (tribunals, reports) 	DCC	1

			etc.) • Ward round • DATIX huddle		
	PM	Ward 2	• Ward round • Complex cases/network/professional meetings • Ward work (Section 17, C&C Ax, T2, SOAD other forms etc.)	DCC	1
Wednesday	AM	Ward 2	• Ward multi-professional handover • Educational supervision (trainee) • Ward round	DCC	1
	PM	Ward 2	• Ward round continued	DCC	1
Thursday	AM	Ward 2	• Ward multi-professional handover • Team supervision • Administration work	DCC	1
	PM	Ward 2	• Clinical management • Safeguarding / other meetings	SPA	1
Friday	AM	Ward 2	• Postgraduate educational/internal CPD • Auditing • MAC, QAG, Interface, peer group meetings • Clinical and management supervision by a lead	SPA	1
	PM	Ward 2	• Administration / CPD	DCC / SPA	0.5 / 0.5
Unpredictable / emergency on-call work					
Total PAs	Direct clinical care				7.5
	Supporting professional activities				2.5

The timetable is indicative only. A formal job plan will be agreed upon between the post holder and associate medical director or clinical manager three months after commencing the post and at least annually after that.

Full-time consultant posts at SABP are job planned routinely with 7.5 PAs DCC and 2.5 PAs SPA. However, subsequent annual or interim job planning enables re-balancing to 7.5/2.5 and other sessional allocation if additional SPA activities are required that need extra time in the timetable (for example, additional supervisory responsibility, regular additional committee/meeting attendance, enhanced audit role, research investigator responsibilities etc.). Similar provisions apply to part-time consultant posts.

18 On-Call and Cover Arrangements

The consultant must be on the Surrey-wide WAA Consultant on-call Rota at approximately 1:30. A partial Trust-wide Higher Specialist Trainee Rota supports this.

On-call activity is recognised in the job by paying an availability supplement (category A/low frequency). In addition, work on call (principally Mental Health Act assessment work) is separately remunerated through the

usual collaborative arrangements mechanism (referring to the position that a doctor can take on behalf of local authorities in this case relating to Section 12 responsibilities with fees agreed and payable through local CCGs). All medical staff working arrangements are subject to the requirements of the European Working Time Directive and related instruments. Compensatory rest for breaches of rest requirements whilst on call can be claimed directly after on-call periods through application to the responsible medical manager.

19 Wellbeing

Occupational health

Our occupational health service aims to promote and maintain the health of all colleagues and prevent work-related health problems. Optima Health will provide our occupational health service and employee assistance programme.

Information about the different services and how they can be accessed is provided below. If you have any concerns about your physical or mental health, please talk to your manager in the first instance. They can then refer you to Optima Health for support.

The Workplace Wellbeing Platform and Optimise offer colleagues a range of resources to promote well-being and identify signs of ill health.

Optima Health will be responsible for providing the following:

- pre-employment health assessments
- Vaccinations
- Managing infection control Risks
- Sharps injuries
- Infection Control
- Pandemic 'Flu, Covid-19 and other pandemic requirements
- Health surveillance and fitness for the task
- Proactive health and well-being support: physio

Vaccination Clinic Locations

Vaccinations are offered at 18 Mole Business Park, Leatherhead and Fern Lodge, Guildford.

Contact the Team

Access occupational health and wellbeing services plus a range of internal resources through the Surrey and Borders dedicated Workplace Wellbeing website. <https://sabp.workplacewellbeing.com/>

Customer Service Helpdesk

The customer service desk is based at the Occupational Health and Safety department and is available from 09:00 to 17:00, Monday to Friday (excluding Bank Holidays).

Telephone: 03300 084 367

Email: SABP@optimahealth.co.uk

The customer service help desk can be contacted to assist in myOHportal, tracking cases, clarifying medical opinions, general health care advice and general pre-employment and pre-referral advice.

Jane Mountain
Occupational Health Manager
Fern Lodge, Farnham Road Hospital
Jane.mountain@sabp.nhs.uk

20 Contract Agreement

The appointment is subject to the 2003 Consultant Contract and is non-residential. The Salary will be per the Terms and Conditions for Consultant pay scales, and the starting point depends on seniority. Annual leave and study leave are granted according to national conditions. The Post-holder will be expected to follow the Trust's Policies and procedures relevant to the post.

The appointment will be subject to a satisfactory medical clearance and enhanced CRB disclosure before commencement in post.

Access to a mentor will be available for anyone in their first Consultant post.

21 Leave

The post-holder is entitled to 27 days of annual leave per year and 30 days of study leave over three years. Annual leave will increase to 32 days based on years in the NHS.

The consultants cover each other during short periods of annual and study leave. Dedicated cover can be arranged with adequate notice for more extended periods of leave.

22 Visiting Arrangements

Candidates are asked to note that the canvassing of any member of the advisory appointments committee or the Trust will disqualify them. Candidates should be able to approach any person for further information about the post.

The post is available from the date of appointment. The starting date will be agreed between the Trust and the appointee. The appointee will be required to take up the post three months after the offer of appointment unless a special agreement has been made with the Trust. If it is unlikely that you will be able to take up the post within this time scale, you should declare this on your application.

Candidates wishing to discuss the post or visit are invited to contact one of the following to make such arrangements:
